

INCREASE HAND
HYGIENE COMPLIANCE,
REDUCING RISK TO
YOUR CUSTOMERS
AND YOUR REPUTATION

ALCOHOL-
FREE
HAND FOAM
SANITISER

At Byotrol we understand the importance of protecting your business reputation as well as looking after your customers' and employees' well-being.

Introducing INVIRTU Hand Foam Sanitiser helps increase hand hygiene compliance, creates a healthier workplace and strengthens brand reputation.

INVIRTU alcohol-free Hand Foam Sanitiser is colour and fragrance-free, non-flammable and safe to use, helping to reduce risk in the workplace.

Formulated to kill 99.99% of common germs and viruses, including Influenza A (H1N1, Swine Flu), MRSA, Rotavirus and *E. coli*. INVIRTU Hand Foam Sanitiser continues to provide protection between hand washing through its prolonged antimicrobial effect.

Encouraging good hand hygiene practice and building compliance is key in preventing the spread of infection. Recent studies show users demonstrate better hand hygiene protocols if products provide good aesthetics as well as high efficacy.

 **INVIRTU**
Excellence in hygiene

Care Homes

Prevent cross-contamination within close-communities by providing INVIRTU Hand Foam Sanitiser 50 ml bottles — discreetly packaged and safe to use.

Education

Maintain a healthier learning environment with a hand hygiene programme to help reduce absenteeism. A recent study showed an 89% reduction in absenteeism through implementing a Byotrol Hand Hygiene Programme.¹

Office Buildings

Create a healthier work space by providing INVIRTU Hand Foam Sanitiser at entrances, exits and on each desk. Demonstrate the value of your employees' well-being whilst helping to reduce employee sick days and increasing company loyalty.

Food Processing

Keep on top of your TACCP* protocols and protect your reputation by introducing INVIRTU Hand Foam Sanitiser as part of your hand hygiene programme. Clinically proven to be gentle on the skin. Protects hands from cross-contamination.
