

RECYCLED CONTENT ACCORDING TO ISO 14021-2016

URBAN
COAST TILE

CREATIONS

greater than 4%

The white paste coatings of the 40x120 format manufactured by apegroup contain a minimum of 4% recycled material, before the consumer, according to the guidelines established in ISO 14021:2016.

International standard ISO 14021:2016, Environmental labels and declarations. Self-declared environmental assertions (Type II Environmental Labeling) specifies the requirements for environmental self-declarations including declarations, symbols and regulations, with respect to products. It also describes the selected terms commonly used in environmental statements and provides ratings for their use.

Recycling content may vary due to changes in production processes, replacement of suppliers or changes in raw materials. If you need this information for calculation in a project, contact apegroup for confirmation.
