ColorDesign is thrilled to bring new toning options to our ammonia free portfolio. To get you started we have created key toning formulas based on the most requested shades stylists are asking for!

- 9.12, 10.12 Pearl Series
- ISV, Light Grey, Dark Grey, Clear corrector
- 100% Ammonia free toning options
- Excellent for color balancing, toning, base breaks, corrective colors
- Contains ceramide A2 and keratin for unsurpassed condition and shine
- Micro-pigmented colorants for consistent, even results and color longevity
- Bonus formula included from our Metallic series!

Mixing and Timing:

Toning: 50ml corrector + 75ml 5 volume developer

Process: 5-20 minutes on damp hair
