INSULATION 

ARCH® INSPIRATION FLEECE

IT'S TEXTURED, IT'S MORE

ARCH® Inspiration Fleece showcases an array of styles and performance functions to the world of synthetic fleece.

Using innovative fiber technologies enable us to create a diverse collection of fabric textures with improved functional qualities. ARCH® Inspiration Fleece's exclusive textured fleece options offer timeless and superior performance solutions to insulation fabrics.

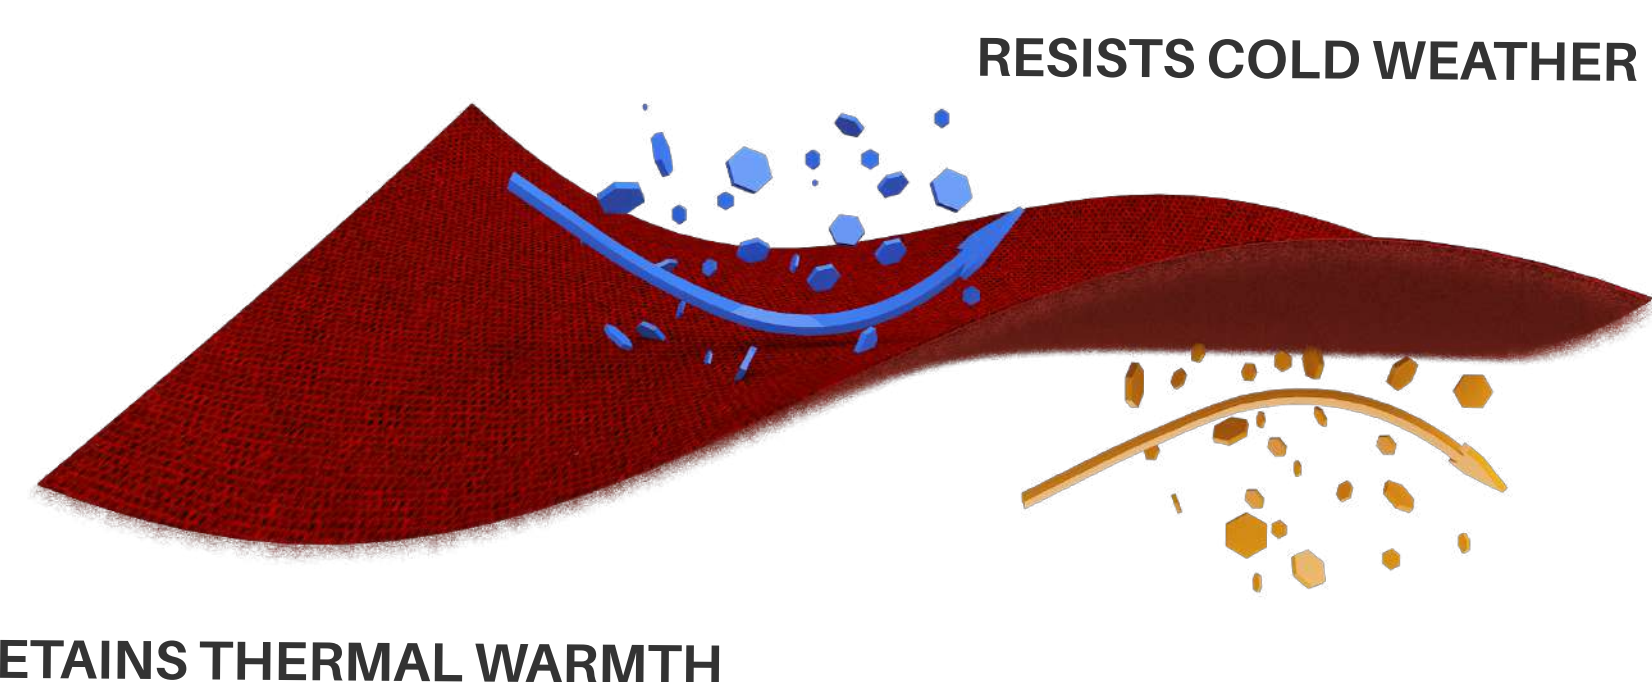

TECHNOLOGY

With groundbreaking knitting techniques, we have advanced the design and functional components of our classic fleece to create a sophisticated line of textured polyester fleece fabrics. Air pockets throughout our fabric allow for heat dispersal and superior breathability.

These components are coupled with our soft and velvety hand-feel to help regulate core warmth and maximize comfort. Our textured designs decrease fabric mass, reduce overall fabric weight, and increase compressibility, allowing ARCH® Inspiration Fleece to be easily pack- ed and stored.

RECOMMENDATIONS

ARCH® Inspiration Fleece fabrics are ideal for those seeking premium weather resistant insulation while maintaining a stylish and modern appearance.

BENEFITS

HIGHLY BREATHABLE

Allows moisture vapor pass through & Keep comfortable

REDUCED FABRIC WEIGHT AND INCREASED WARMTH

Keep warmth to the body

QUICK DRYING

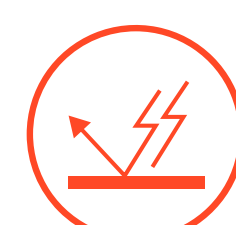

Keep Dry to the body

AVAILABLE TECHNOLOGY

DURABLE WATER REPELLENCY

Provides long-lasting & Comfortable water resistant

ANTI-STATIC

Avoids electrostatic charges

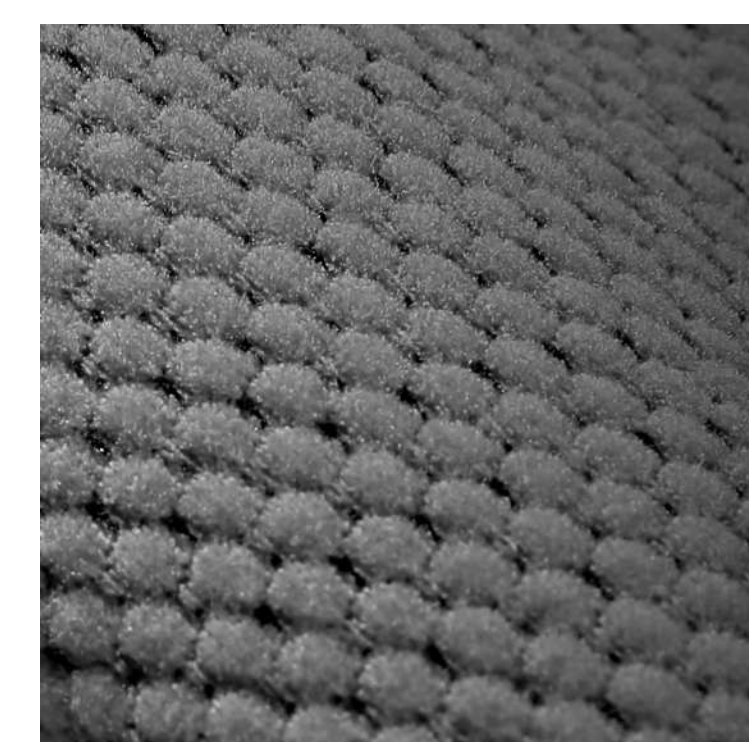

RECYCLED WITH MAGNIF-ECO®

Made of recycled fiber

ODOR RESISTANCE WITH CUPLUS®

Reducing odor from the body

ARCH®
