Cover showing Elevation™ 42 with Black Illusion Glass, Bevelled Trim and Split Oak Logset

ELEVATION™ SERIES

FULL VIEW GAS FIREPLACES

E36 | E42

The Elevation™ Series has been introduced to meet the increasing demand for full view fireplaces. As an entry level offering for the existing Elevation™ X Series, the Elevation™ features an enhanced deep depth firebox at a competitive price.

Showing Elevation™ 42

Why Choose the Elevation™ Series:

- The entry level Elevation Series includes a Split Oak Log set and a limited selection of accessories helping to build a natural step up to the top tier Elevation X series with premium log sets, designer fronts and accessory options
- A true full view, deep depth firebox providing the clean face design homeowners are looking for - without the need for additional installation costs of a mantle
- Optional Heat Management systems for reduced clearances to combustibles allows for more design flexibility for TV's and artwork
- Full view safety barrier ensures an unobstructed view of the flame

ASCENT™ BX

TRADITIONAL GAS FIREPLACES

BX36 | BX42

Showing Ascent™ BX36

The Ascent™ BX has been introduced to complete the line logic of the Ascent™ family. An upgrade from the Ascent™ series fireplace, the BX offers premium options while the framing width and depth stay the same.

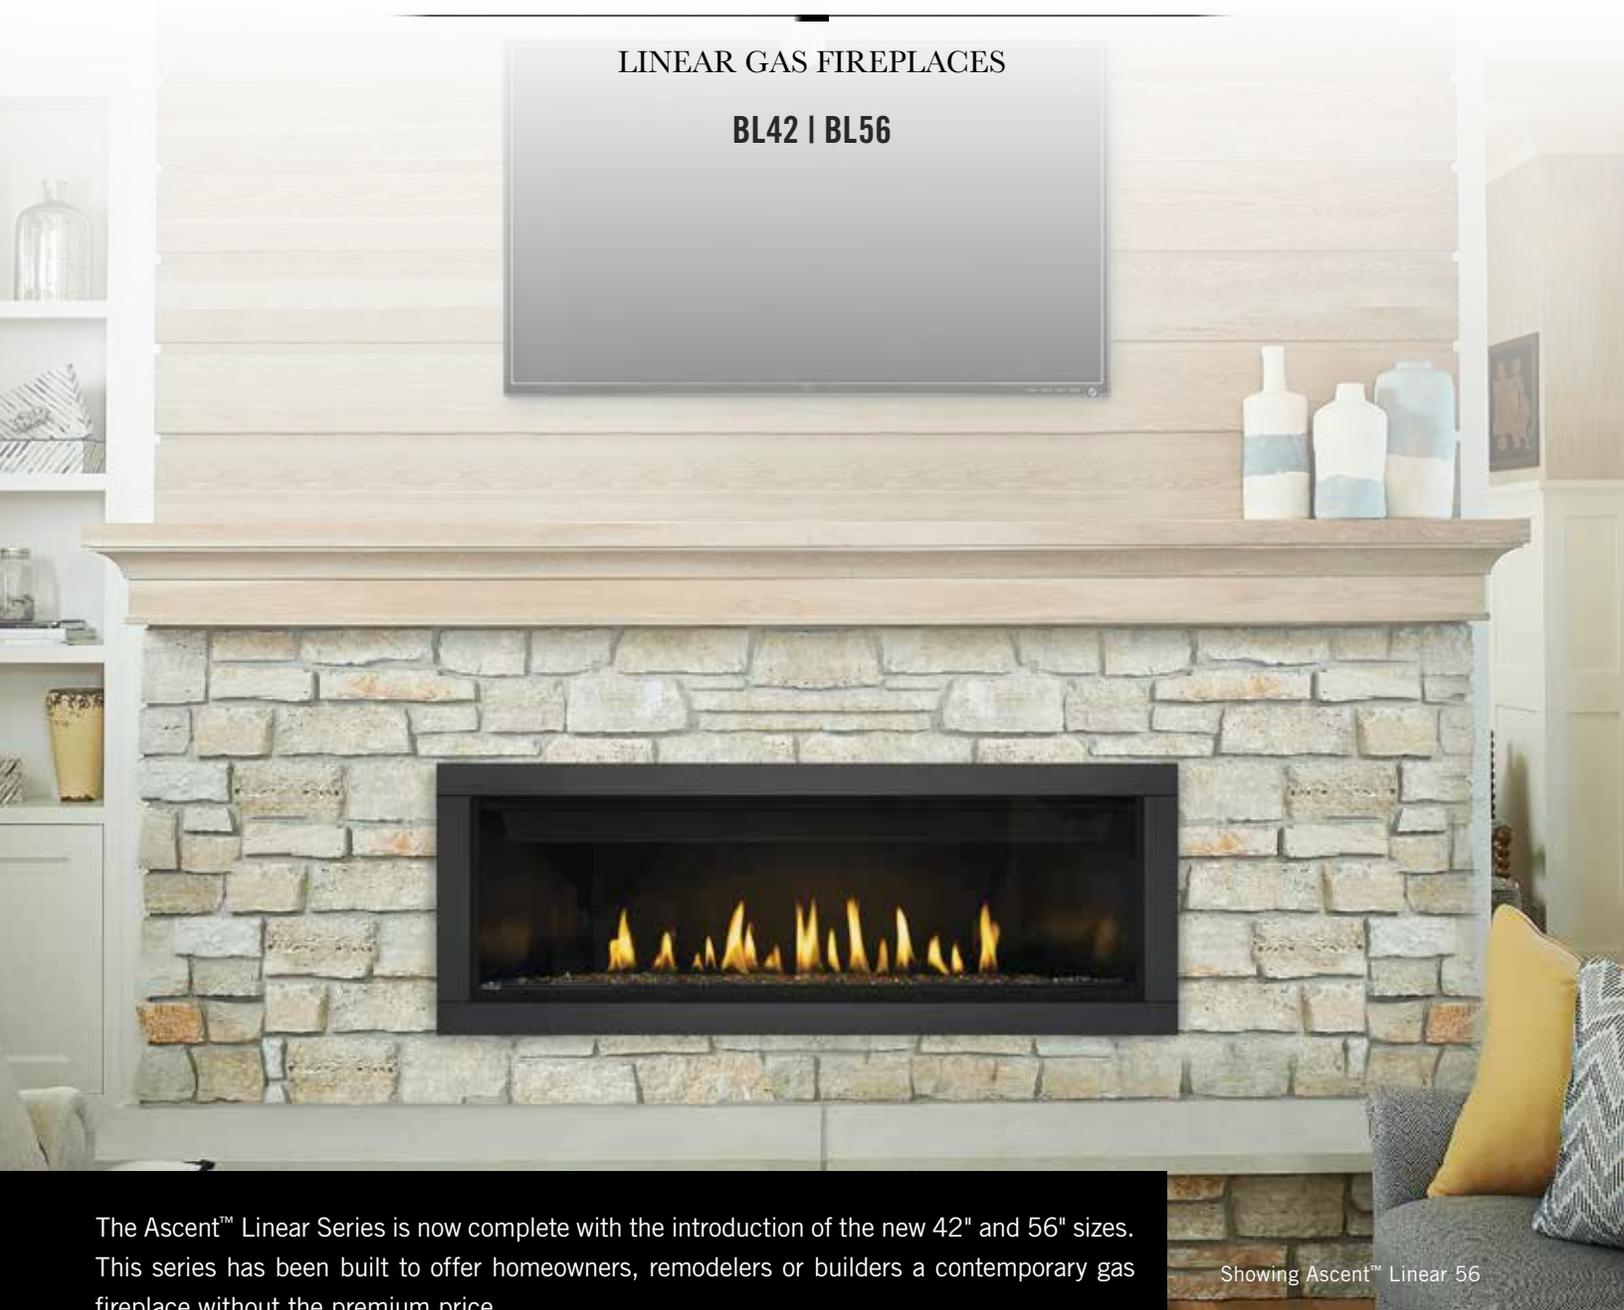

Why Choose the Ascent™ BX:

- Built within the same frame as the Ascent™ series so you have the flexibility to upsell to a linear or more premium model without needing to reframe the space, meaning more upgrade opportunities and higher margins
- Optional heat management system means the fireplace is truly designed for sensitive items like TV's and artwork
- Enjoy premium options and accessories like the ceramic glass, remote, blower and NIGHT LIGHT™
- Premium safety barrier ensures a high-end appearance
- Versatile venting options allow for more installation flexibility

ASCENT™ LINEAR

LINEAR GAS FIREPLACES

BL42 | BL56

The Ascent™ Linear Series is now complete with the introduction of the new 42" and 56" sizes. This series has been built to offer homeowners, remodelers or builders a contemporary gas fireplace without the premium price.

Showing Ascent™ Linear 56

Why Choose the Ascent™ Linear Series:

- Built with the same width and depth as the Ascent™ series means you have greater flexibility to upsell customers to a linear model without needing to reframe the space. More upgrade opportunities = more margin dollars for you!
- Compatible with optional heat management systems to ensure heat is directed to where it is needed
- With steel header no longer required, enjoy a simplified installation
- The clean face design enhances any room's décor
- The MIRRO-FLAME™ Porcelain Reflective Panels create even more impact with the flame and a sleek, elegant statement
- The ability to mix and match media enhancement kits ensures a custom appearance

TRIVISTA™ PICTURA

3-SIDED ELECTRIC WALL MOUNT FIREPLACES

NEFL50H-3SV | NEFL60H-3SV

Showing Trivista™ Pictura 50

The Trivista™ Pictura Electric Wall Mount has been designed with future trends in mind. The unique 3-sided view of the flame and the simple wall mount installation ensures both beauty and function at a competitive price that homeowners will appreciate.

Why Choose the Trivista™ Pictura

- Simple wall mount installation allows for flexibility in terms of where the fireplace is installed, i.e. bedroom, home office, gym, foyer, etc.
- Ideal for secondary locations in a home, translating to increased opportunities for sales, especially where space is minimal
- A cost-effective solution that evokes cozy and comforting effects
- The unique smoky side glass adds a premium appearance
- The wide breadth of ember and flame color options ensures a versatile focal point that can enhance any room's decor

ELEMENT™ 42

BUILT-IN ELECTRIC FIREPLACES

NEFB42H-BS

The Element™ 42 Electric Built-In has been introduced to expand the Element Series and Napoleon's offering for the builder market. As the world evolves towards more sustainable practices, the Element Series provides a net-zero solution that competes with gas fireplaces with standard framing of the same size.

Why Choose the Element™ 42:

- Built within the same frame as standard 42" models so builders are offered a great advantage by having the flexibility to spec their framing now and choose the fuel later without slowing their progress
- The large viewing area and clean face ensures the optimum view of the flames and media homeowners are looking for
- Ideal for rooms where space is minimal
- With no venting required, installations are simpler and more cost-effective
- Enjoy design flexibility with a minimum mantel height clearance requirement
- The included premium 7-piece log set with black crystal media instantly upgrades the appearance of any space

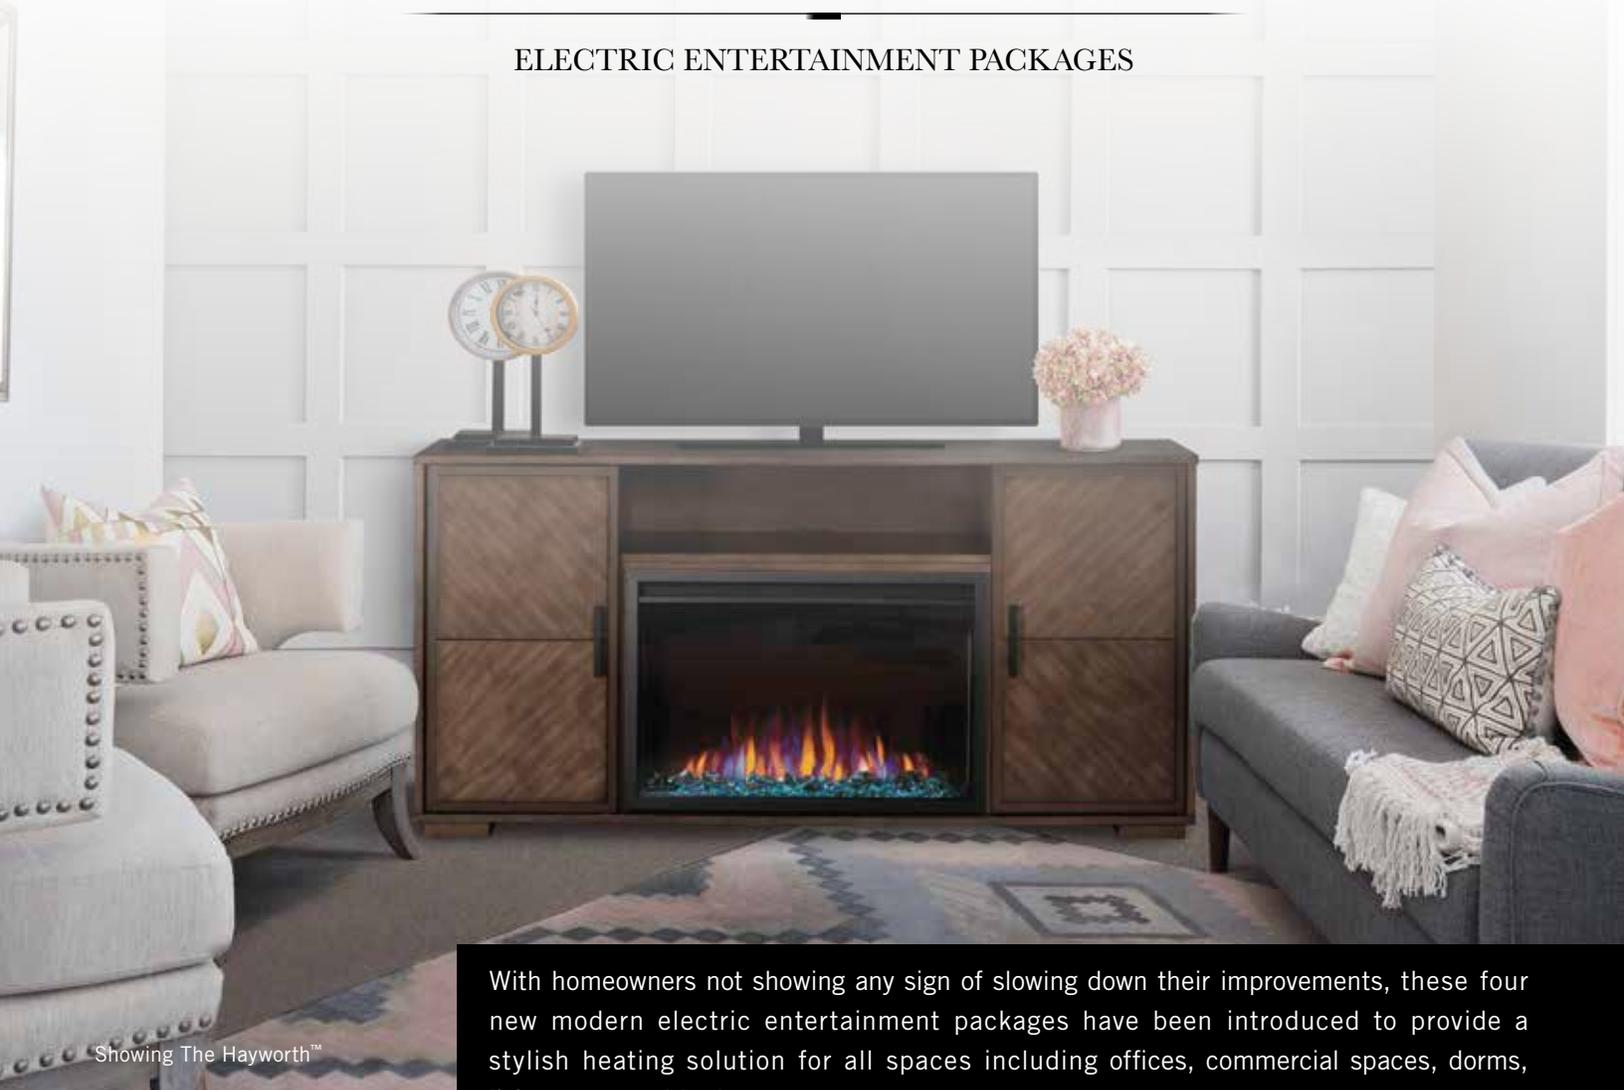

New Trim Kits are available for the Element™ 36 and 42!

The optional trim kits allow the Element™ to fit into fireplace openings that would be too large without it, ensuring even more installation flexibility. 5" in width and height, the trim kit partially overlaps the built-in finishing trim of the firebox for a seamless appearance.

ESSENTIAL SERIES MANTELS

ELECTRIC ENTERTAINMENT PACKAGES

With homeowners not showing any sign of slowing down their improvements, these four new modern electric entertainment packages have been introduced to provide a stylish heating solution for all spaces including offices, commercial spaces, dorms, living areas and bedrooms.

Why Choose an Essential Mantel Package:

- Built with the Cineview™ Electric Firebox, these units provide true simplicity and flexibility of styling
- Simple plug and play installation allows for flexibility in terms of where the fireplace is installed
- Ideal for secondary locations in the home, areas where extra storage is required or for rentals
- A cost-effective solution that evokes cozy and comforting effects
- Multi-color flame options and 7 ember bed color options ensures a focal point that can enhance any room

Hayworth | NEFP26-3120WN

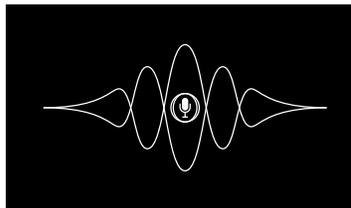

STYLUS™ CARA ELITE

COMING FALL 2022

As a sneak peek into what's coming this Fall, here's some insider info into what you can expect with the new Stylus™ Cara Elite.

This upgraded model will offer the same benefits of the existing Stylus™ fireplace but has been further enhanced with some new and exciting features:

Voice Control Integration with Google and Alexa

The fireplace will be integrated with Voice Activation technology. Control select fireplace settings using your voice through your Google Home and Alexa devices.

Wi-Fi Connectivity with Napoleon Home Smartphone App

The Wi-Fi connectivity allows our product to be controlled by your smartphone. The app gives the user the ability to access all the fireplace features in one place. In future the Napoleon Home app will be able to communicate to multiple Napoleon Home integrated products.

LED Weather & Information Display

The LED weather and information display can display time, date, heater status and indoor/outdoor weather conditions. The display automatically updates the information of local conditions through the IoT device when connected to Wi-Fi.

HEARTH | 2022 MARKETING SUPPORT
