

Troche Base SF with Bitter-Bloc

Product Highlights

Troche Base Sugar Free with Bitter-Bloc™ is an easy to use, convenient alternative to time-consuming traditional troche preparations. An anhydrous, sugar-free troche base that incorporates natural bitter blocking technology for use in lozenge type oral/buccal cavity preparations. Enhanced with natural sweeteners and suspending agents, it is ideally suited for buccal absorption of APIs. Additional flavors, colors, and sweeteners can be easily incorporated.

Pharmaceutical grade Polyethylene Glycols, natural sweetener, thickening and suspending agents, and flavor enhancers are already included - just melt and add API and flavor.

- Easy to measure and use
- Pre-sweetened
- Includes natural bitter blocking technology

Benefits

Sugar free

Easy to use

Applications

Dental

HRT

Pain

Sexual

Dysfunction

Ingredients

Polyethylene Glycol, Xanthan Gum, Silica, Stevia, Bitter-Bloc™
