## Section 5: Fire Fighting Measures

<b>Suitable Extinguishing Media</b>	Water spray, dry chemical, carbon dioxide, or foam as appropriate for surrounding fire and material.
<b>Special Hazards Arising From the Substance/Mixture</b>	This material is assumed to be combustible. As with all dry powders, it is advisable to ground mechanical equipment in contact with dry chemical to dissipate the potential buildup of static electricity.
<b>Special PPE and/or Precautions for Firefighters</b>	As with fire, evacuate personnel to a safe area. Firefighters should use self-contained breathing equipment and protective clothing.

## Section 6: Accidental Release Measures

<b>Personal Precautions, Protective Equipment and Emergency Procedures</b>	No special precautions necessary.

<b>Precautions for Safe Handling</b>	As a general rule, avoid all contact and inhalation of dust, mists, and/or vapors associated with the material: Wash thoroughly after handling.
<b>Conditions for Safe Storage</b>	Store in a well-closed and light resistant container as defined in the USP-NF. This material should be handled and stored per label instructions to ensure product integrity. Avoid excessive heat (NMT 40 °C). Do not handle or store near an open flame, heat, or other sources of ignition. Keep the container tightly closed and in a cool, well-ventilated place. Keep it out of direct sunlight and away from heat source. Most congenial temperature range is 0-25 °C.

## Section 8: Exposure Controls/Personal Protection

<b>Components with Workplace Control Parameters</b>	There are no currently occupational exposure limit values established for the substance.
