Care information	<div><div><ul style="list-style-type: none">Caring for the earthenware bowl<p>We have designed a striking set of earthenware bowls for our Green Range featuring a hard-wearing proactive glaze on the inside and a unique matte glaze on the outside, known as Engobe. Any fibres on a cleaning cloth will stick to the outside surface more easily due to this beautiful finish. We suggest you clean both the interior and exterior surface of the pot by gently wiping away any marks using warm soapy water and a lint free cloth. Once the pot is clean, gently dab dry using a soft, lint free cloth or towel.</p></div><div><ul style="list-style-type: none">Caring for the wooden structure<p>The bowl can be easily removed from its wooden holder before planting or watering. Should you want to water the plant in place, simply wipe away any surface moisture or water straight afterwards to minimise the chance of water stains. Mild furniture polishes can be used on the wood.</p></div></div>
