

ChargePort Classic USB-C Video

ChargePort Classic USB-C Video

- Provides guests with easy-to-find power and charging outlets.
- Mirror UHD video¹ from your guests devices on your guest room TVs.
- Uniquely designed to sit on desk or nightstand
- Two AC outlets and two USB device charging ports
- High-current/fast-charging USB port supports wide range of portable devices including smartphones and tablets that require higher USB charging current
- Engineered for safety with 10-Amp integrated circuit breaker
- Simple to install, durable construction for everyday use
- No need to commandeer a wall outlet, pass-through power plug replaces wall outlet used to install
- Optional mounting plate for secured horizontal and vertical mounting (sold separately)
- Top surface can be branded or used for guest instructions
- UL Approved

Power, Charging and Video

The ChargePort Classic charging solution allows hotels to place AC and USB power outlets where guests need them most - at the desk or nightstand. Conveniently located outlets provide the power source guests need to charge smartphones, tablets, laptops and other portable devices. Perfect for desk or bedside placement so guests can comfortably use their device while it's charging.

Add a 2 metre USB Type-C[®] to HDMI cable and your guests simply plug the cable in to their USB Type-C[®] equipped mobile phone to display beautiful UHD video¹ on the TV.

Simple Installation

Just place the cable in the channel on the base of the PullThrough Pro and lock the cap in place. Then plug the HDMI end of the cable in to a spare HDMI port on your guest room TV.

If required the supplied double sided sticky pad or an optional security bracket can be used to secure the ChargePort Classic to the furniture.

¹Requires a UHD TV. Video and audio only, not charging, USB-C to HDMI cable supplied separately.
