

SPECIFICATION

ChargeTime is a cost-effective solution for an alarm clock and guest mobile device charger in an attractive minimalist design. With dual, front-facing USB ports, guests will immediately recognize and appreciate the amenity before doing the familiar crawl under the nightstand in search of an outlet.

Ease of use ChargeTime is all about simplicity as too many buttons can become confusing to guests. The snooze bar across the top doubles as a clock dimmer. A simple sliding switch on the side enables or disables the single-set alarm function. USB ports prominently located on the front makes it obvious where to plug-in.

Features

- Alarm clock with USB charging
- High-current USB port for tablets and fast charging
- LED digital display with dimmer switch to easily control brightness
- Minimalist design makes it easy for guests to use, reducing calls to reception
- Security lanyard secures to rear or under-side of nightstand, to allow for movement while preventing theft.
- Power cable retaining cover to prevent being unplugged by guest
- Single-set alarm
- Small footprint
