MiniClip Modules

Select the modules you need and fit in the order you require.

Example configuration

Ultimate Flexibility

For ultimate flexibility, the MiniClip range allows you to add AV or data capabilities to a guest room desk or nightstand. Select from a wide range of modules shown below.

Two trim sizes are available, 50mm and 100mm. The 50mm trim takes two 25mm modules or one 50mm module. The 100mm trim takes up to four 25mm modules or a 50mm module and two 25mm modules (other combinations are possible).

TA-3377-25 Dual USB (1 fast charge) 25mm module. (Black/white).	**TA-3377-50** Dual USB (2 fast charge) 50mm module. (Black/white).	**TA-3378-25** Dual USB-C 25mm module with Power Delivery. (Black/white).
TA-3371-25 HDMI 25mm module. (Black/white).	**TA-3374-25** CAT6 25mm module. (Black/white).	**TA-3376-25** 3.5mm 25mm audio module. (Black/white).
POE-512VBK01 PoE 50mm module IEEE 802.3at. (Black).	**TA-3379-25** Light switch 25mm module. (Black).	**TA-3375-25** Blank 25mm module. (Black/white).

Trims and Carriers

MiniClip modules simply clip into a carrier which is screwed into the furniture. Select either a 50mm or 100mm carrier depending on the number and combination of modules you need. Choose a black or white trim to match the modules and an optional metallic insert if required.

You can also pair MiniClip modules with PowerHub using our Extender trims.
