

SPECIFICATION

Modular USB charging solution

Specifically designed for device charging this small, yet powerful panel offers two high-power 2.4A USB sockets with smart-charge for broad compatibility and fast charging.

The Twin USB Charger flush-mounts into case goods and is ideal for the hotel nightstand, restaurants, lounges and conference rooms. Additional power sockets with Ethernet or additional USB charging sockets can be included by using the Extender trim with PowerHub.

- Flush Mounts into wide range of furnishings, millwork, casegoods, and partition walls.
- High Power 2.4A USB module with Smart Charging
- Standard Euro 50mm Module
- Choice of black or white module and trim colours
- Compatible with PowerHub using the Extender trim.

Extender comprises of three separate parts, examples shown here include:

1. Extender Trim: CKIT-MHMN-EXT2 (Aluminium)
2. USB Charger: TA-3377-50BK
3. PowerHub USB: TA-7530
