PowerHub | TA-7500

SPECIFICATION

This compact and attractive product puts two additional power outlets, and an Ethernet plug-in jack right at your guest's fingertips. Or, add our MediaHub Mini to the PowerHub and create the MediaHub Mini Extender, a guest entertainment connectivity panel with additional power ports. It's the perfect solution for plugging in today's hotel guests and keeping them connected.

- Provides guests with two easy-to-find grounded power outlets.

- Available in UK, EU and Universal power configurations.

- Features a reset button to prevent overload.

- Gives guests Internet access through a convenient RJ45 Ethernet jack (optional snap on cover available if internet not required.)

- Attractive black & silver bezel or trims compliments any room decor.

- Easy installation.

- Add any MediaHub Mini entertainment panel to create a sleek all-in-one multimedia connectivity Extender.
