

## FURNITURE MOUNT POWER AND CHARGING

Designed to fit into casegoods and furniture, PowerHub Mini simply and easily brings power and charging to all areas of the guest room or indoor public spaces. Built with safety in mind, PowerHub Mini is manufactured to the highest standards and includes a universal outlet. In addition mobile phone and tablets can be charged from the built-in USB Type A and Type-C™ sockets. PowerHub Mini is available in soft-touch black or white with a range of trims so designing guest-rooms and public spaces with easy to access power and charging has never been easier.

- Provide your guests with conveniently located power and charging capabilities.
- Compact design fits flush in furniture or casegoods (including bed headboards attached to the bed).
- Fully enclosed design with detachable power cord, simply plug in to a wall socket.
- Universal AC outlet.
- USB Type-C™ charging outlet for charging the latest smartphones and tablets.
- USB Type A charging outlet for charging all other smartphones and tablets.
- USB over current/temperature/voltage/short circuit protection and cable length drop compensation.
- Two trim variants supplied with each unit; brushed grey metallic and soft touch (rubberised) black (or white).
- Other trim finishes available to order include nickel, stainless, champagne, brass and bronze.
