

PullThrough Pro Installation Guide

Fixing the cable and cap to the base.

STEP 1: Insert the cable (1) into the cable slot in the base (2).

STEP 2: Take the cap (3) and align the cap lugs with the wider openings in the locking slots on the base.

STEP 3: Lower the cap onto the base ensuring the cap lugs fit into the locking slots.

STEP 4: Secure the cap by firmly placing the palm of your hand on the cap and holding the base with your other hand. Rotate the cap approximately 30 deg clockwise to lock.

STEP 5: Lock the cap using the security screw in the bottom of the base and affix the double sided adhesive pad if required.

Removing the cap and cable from the base.

STEP 1: Remove the locking screw from the bottom of the base.

STEP 2: Firmly place the palm of your hand on the cap (3) and hold the base (2) with your other hand. Rotate the cap approximately 30 degrees anti-clockwise to unlock.

STEP 3: Lift off the cap and remove the cable (1).
