

# › LevMix Portable Mixing Unit

COLLOMATIC  
FLOORING TECHNOLOGY

## Work faster with the world's most agile portable mixer

LevMix is designed to save you time and money from start-to-finish, so you can conquer more jobs in less time

### › Smoother materials. Seamless applications

# › LevMix - Your very own profit center:

## Big jobs. Small crew.

- › LevMix can be easily handled by a single person. It revolutionizes your pour workflow.

## More profit. Less labor.

- › **Turbo charge mixing time - save up to 66%.**  
Mix faster with an exclusive turbo mixing tool with a twin blade paddle.
- › **Smoother materials with a lump-free guarantee.**  
No lumps. No residue. You'll get smooth surface materials and premium flow.
- › **Say goodbye to hauling buckets.**  
No backbreaking buckets. No hunching over. With swiveling casters and an ergonomic swing arm, you'll save your back.
- › **Move swiftly in confined spaces.**  
With three bags of capacity packed into one compact frame, it's the ideal size to keep you mobile and agile for small or large spaces.
- › **Clean easily with a dust-free worksite.**  
Simply connect to a vacuum to keep dust-out - and work in clean air.
- › **Cost saving mixing bucket.**  
Long-lasting, easy to clean, minimal wear and low replacement costs.

## › Convincing results in no time

## › A beast of a paddle EXCLUSIVE to Collomix

No lumps. No residue. Get smooth materials faster with a paddle that ensures top processing quality. It mixes from top to bottom for remarkable consistency

No material residues on the bottom - the scraper on the paddle ensures this

# › LevMix - The perfect pour is portable:

## Powerful drive

2.1 hp drive for safe and continuous operation

## Safety switch

Safely switch LevMix on and off, with an undervoltage trigger for added protection

## Safety

The operators' hands are away from dangerous areas, with a partially covered bucket and the working end of the paddle near the bottom of the bucket.

## Swing arm

Guide the machine quickly and easily for a controlled pour. A well-balanced design eliminates tip over concerns.

## Foot pedal

Safely unlock the mixing bucket with ease.

## Mobility

With four casters, it's easy to maneuver in confined spaces.

## Dust-Free

A dust-port easily connects to a vacuum for a virtually dust-free operation and a cleaner workplace

## HEXAFIX quick coupling

Holds the paddle for tool-free installation and easy removal

## Pouring spout

The spout keeps poured materials away from the casters for a smoother operation.

## 19 gallon mixing bucket

With 15 gallons of usable volume, it's suitable for 3 to 4 bags of mix. It's sturdy, with a smooth thick-walled bucket and pouring spout. It's easy to clean and remove from the machine.

## Strong design

It's reliable, even under heavy weight loads. Its compact to navigate confined spaces.

## Plus: LevMix Special - Fine particle sieve

To hold back even the finest particles, the sieve increases purity for highly sensitive, visible surfaces.

## EXCLUSIVE VLX turbo mixing tool

Unmatched performance. Get smooth materials faster with a double-action paddle, that mixes top-down as well as side-to-side. That ensures top processing quality. Materials are free of lumps with premium flow.

# › LevMix - The perfect pour is profitable!

Even large floor areas (i.e. food stores, production plants) can be easily managed with several units, perhaps on an overnight job.

- The best workflow for high output . More efficient in less time.
- Skyrocket your ROI with the industry's best cost/benefit ratio.
- Ergonomically designed to save your back and protect your health.
- Better material quality ensures faster processing

## What professionals say about LevMix:

"My people love it because it's easier to handle than any other solution we've tried. I love it because we're much faster and we can do 35 % more jobs than before. We work with up to 3 LevMix machines on one site, depending on the job. That way even when working in angled and remote locations, 1,000 square feet can easily be done with in an hour. The LevMix can even handle large-scale industrial jobs and over-night projects."

Rick A. Mandrik, Flooring contractor
