Mid-century style meets this-century ease. The Towne Bi-Sectional features a slender profile, elevated powder-coated metal base and blind tufted cushions that bring a touch of refinement to contemporary residential and commercial spaces – without sacrificing comfort. Designed to adapt to your layout, it can be configured with the chaise either on the left or right. Alternatively, the chaise can be separated to create a sofa and a free-floating lounge. Whether you're curled up with a novel or gathered for game night, the Towne Bi-Sectional makes daily rituals extra special. The frame is constructed with kiln-dried 100% FSC®-Certified hardwood in support of responsible forest management. Also available as a Sofa and Lounge.
