STITCH EXPLANATON

yo (yarn over)

An increase that also creates a small decorative hole (eyelet) in the fabric, worked as follows:

1. Bring yarn to front, between the needles.
2. Take yarn to back, over the right needle. This creates the new st. You are now ready to proceed with the next st as instructed.

NOTES

1. Scarf is worked back and forth in rows lengthwise.
2. Yarn color is changed every 4 rows to form a total of 17 stripes. The first and last stripes are worked with E. The 15 stripes between the first and last stripe are worked following Stripe Sequence. When changing yarn color, leave long beg and ending yarn tails as instructed.
3. Designer recommends a chain or crochet cast on.
4. All slipped stitches are slipped as if to purl.
5. With yarn in front (wyif) refers to the side of the work facing you as you work the row; with yarn in back (wyib) refers to the side of the work that is away from you as you work the row.

6. To move yarn from front to back or back to front, bring yarn between needles. Take care not to wrap yarn over a needle, this could create an additional st.

7. Circular needle is used to accommodate stitches. Work back and forth in rows on circular needle as if working with straight needles.
