

# How to build The Shorty

Mustard lockers are beautifully designed to make putting them together simple + argument free! No tears + no allen keys! All you need to get started is a **phillips head screwdriver!**

We've made a video taking you through the build step by step. Watch it here: [mustardmade.com/build-it](http://mustardmade.com/build-it). It's easy, you got this!

We recommend you attach the locker to the wall to prevent tipping + causing injury. Use the extra screws + plugs to screw through the two holes in the back panel (as required for your wall).

- 10 x brackets (2 spare)
- 1 x post
- 1 x large washer
- 1 x L shape post
- 2 x screws
- 2 x small washers
- 1 x handle
- 1 x set of keys (attached to door)
- 1 x keyring

**1**

Stand both legs up + push the side panel down onto the legs.

**TIP:** make sure the holes in the legs are nearest to the front!

**2**

Push the second side panel down onto the legs.

**3**

Push the back panel into place, starting at the bottom.

**4**

Fold down the tabs on the corners of the back panel.

**5**

Add the base, starting at the front. Push the base down into place.

**6**

Add the top panel starting at the front.

**7**

Check from all angles that the side + back panels are slotted in correctly.

Click the top into place.

**8**

Add the brackets + place the shelves on top. Use the round holes to help you measure the height.

**9**

Insert the post + large washer in the hole in the leg.

**10**

Slide the door down onto the post.

At the top of the door, insert the L shape post up into position through the holes. Bend the tab up.

**11**

Grab your screwdriver!

Use your screwdriver to attach the handle with the small screws + small washers.

**12**

**Woohoo! You nailed it!** Now the only question is... what will you put inside?

**P.S.** pop the spare key in a safe spot just in case!

**you got  
this!**

We made you a 'how to' video:
