CHEE CHAIR

Chee is an ornate but contemporary bent wire chair collection designed for comfort. The overlapping metal wires curve out from the frame to create a striking geometric web. This bent wire web supports the back and forms a seat that is both beautifully graphic and supremely comfortable.

Suitable for indoor and outdoor use, the Chee chair is durable and stackable up to 4 making it suitable for both commercial interiors and the home.

Each design in SP01's outdoor collection has undergone rigorous testing to ensure longevity even in the harshest of environments - the Australian outdoors.

DESIGNER

Tom Fereday, 2016

MATERIALS

A bent steel rod and wire chair treated with three layers of protection: zinc primer, cathoretic dip and powder coat.

Every chair comes with a seat pad in matching colour made from EVA foam and 100% Polyester fabric Ibiza, specially treated for outdoor use.

Chair available in white with seat pad in Ibiza light greige or black with seat pad in Ibiza black.

Optional upholstered soft seat cushion CHCUSC available in outdoor fabrics and indoor fabrics and leathers.
