Wash + Care Instructions

Hand or Machine Wash

Washing your gear by itself with cold water and a non-detergent insulation cleaner is best for extending its useful life. We recommend Grangers Down Wash + Repel.

1. If the gear is soiled or stained, use the recommended amount of Grangers Down Wash + Repel. Do not use fabric softener, bleach, or stain removal products.
2. Wash the blanket by itself on a full cycle at 30°C/86°F.
3. Heat activation is required. Tumble dry on a low-medium heat. Do not stuff back in stuff sack damp or wet.

Never Use

DETERGENT
