Batteries: Do not insert batteries into the battery box until you are ready to use the product. Slide the switch to the 'off' position before inserting the batteries. 2 x 1.5V AAA batteries are required. Rechargeable batteries should only be charged under adult supervision. Rechargeable batteries should be removed from the toy before being charged. Never use different batteries to those recommended. Never mix old and new batteries or different types of battery. Do not attempt to recharge non-rechargeable batteries. Remove and carefully dispose of exhausted batteries (recycle if possible). Batteries are to be inserted with the correct polarity. The spring in the battery compartment corresponds to the negative (-) end of the battery. Do not short-circuit the battery terminals.

Mains Electricity: Never connect any of the components in this kit to mains electricity. Children should be instructed about the dangers of mains electricity.

The Battery Compartment: Open and close the battery compartment using a suitable screwdriver. Remove batteries from the battery compartment when not in use.

WARNING!

For Ages 4 years +

Not suitable for children under 36 months due
to small parts that may represent a choking
hazard.

None of the accessories in this kit should
be allowed to come into direct contact with
foodstuffs.

Wash hands after use.

Young children will need the help and
supervision of an adult.

Unicorn Garden & the Magical Wishing Well

- 2 x Bunting Posts
- 3 x Rainbow Bunting Stickers
- Plastic Flowers
- Requires 2 x AAA batteries(not included)

*Please Note:
You will need some grass seed
and soil or compost (not included
in this kit)*

Introduction

Fairy Belle and her Unicorn Friends are inviting you to the Unicorn Garden!

Let the Unicorns take you to the Magical Wishing Well, where you can make a wish with the crystals. When you hear the music and see the lights, you'll know that your dreams will come true!

Creating Your Unicorn Garden

1. Add Soil to the Unicorn Garden Bowl

Fill the bowl nearly to the top with some sieved soil or multi-purpose compost available from garden centres. The soil or compost should be damp but not too wet. Firm the soil down to make a smooth and stable surface.

PLAY MONSTER

2. Make the Path

Use the multi-coloured gravel to make a path that starts at the Arbour and finishes at the Wishing Well.

3. Sow the Lawn

Evenly scatter the grass seed over the bare areas of soil. Carefully sprinkle water over the seeds so they are damp. Be careful not to add too much water.

4. Assemble the Bunting

To assemble the bunting, follow the guide below. Once complete, place it in the Garden by pushing the poles into the soil.

Peel the bunting from the backing sheet, place the unfolded piece of bunting on the string.

Fold the bunting over the string.

5. Assemble the Bridge

Clip the sides of the bridge to the main walkway.

Clip the hook onto the acorn
bucket handle

Thread the string through the hook and
knot. Thread the other end through the
spindle and knot.

Insert the Batteries

See instructions on our rear cover of this booklet

Crystals glow in the Magical ilght up Wishing Well.

Caring for your Unicorn Garden

Depending on the temperature, the grass will take about 1 or 2 weeks to start growing. Place the garden in plenty of light (a window sill is ideal). Check it every day to make sure the soil does not dry out. Sprinkle more water on the seeds if needed. When the grass begins to grow, keep the soil moist but don't add too much water or it will make a very muddy garden! It will take a few days for the grass to grow into a lawn. To keep it looking nice, occasionally trim the grass with a pair of scissors. (Ask a grown up to help with this).
