

THE FINISHING TOUCHES COUNT

In-desk Power and Media Popups

Unobtrusive, custom designs and finishes.

In-desk power modules and media popup modules provide the facilities your guests demand in a subtle, unobtrusive way. Designed and finished to your specifications, a custom designed module or popup blends with your décor and provides the finishing touch to any style of room.

- Provide a unique guest connectivity and power panel
- Integrate MediaHub for plug-and-play, auto-sensing media connectivity
- Conveniently locate power sockets and/or USB sockets for device charging
- Option to add data sockets and switches for lighting
- Large selection of colours to suit switches and decor
- High quality finish
- In-desk / Pop-up options available in some regions. Subject to certification.

* MOQ applies and restrictions may apply due to certification.
