

CAN-380 PINT DEHUMIDIFIER

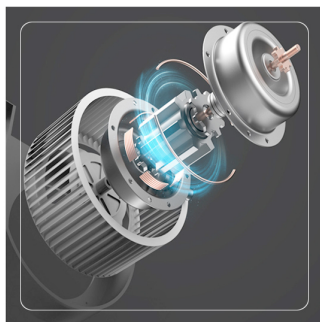

CAN-380 SPECS:

Capacity 80°F, RH 60%, - 380 pints/24hr
Air Flow - 1648 CFM
Power Supply 208-240VAC, 1 phase, 60hz
Rated input current - 16A
Working temperature - 60°F-100°F
Overall size - 43.3x35.4x27.6
Packaging size - 46.9x33.9x39
Net weight - 278 lbs
Gross weight - 330 lbs
Air inlet flange - 11.8x15.8
Energy factor - 5.1pints/kwh
Applying space - 2000-3500 sq ft
Sound level - 65dB
Air inlet/outlet plastic round flange optional
Thermal expansion valve
Refrigerant: R410a
Humidistat with external on/off control
Ventilation mode external control
Dry contact for 3rd party controls
