BB2000

The IPC Eagle BB2000 utilizes an automatic pad pressure adjustment system. This unique system allows the machine to maintain a constant pad pressure as the pad wears. This results in consistent and optimal burnishing results throughout the life of the pad. This feature, along with ease of access for changing the pad, separates the IPC Eagle BB2000 from the competition.

PRODUCTIVITY		BB20 NON TRACTION	BB20 TRACTION	BB24 TRACTION
Burnishing width	in/ mm	22 inches/ 560 mm	22 inches/ 560 mm	26 inches/ 660 mm
