

AXEON FST – Series Water Filtration Systems

AXEON FST – Series Water Filtration Systems are designed to be a high performance, corrosion resistant solution for high flow stand-alone applications. Systems are simple to install, quick to maintain and easily configurable. The high capacity cartridge allows the incorporation of multiple media options for maximum customization. The **FST – Series Water Filtration Systems** can be used for multiple applications ranging from residential to sea water applications.

AXEON offers the FST – Series with the following cartridges:

- Calcite
- Mixed Bed DI
- GACC / Catalytic Carbon
- GACC Carbon
- Catalytic Carbon

Each filter cartridge comes with a uniquely designed built-in handle for ease of removal with an incorporated double O-ring connection.

Benefits

- Light Weight
- High Chemical Compatibility
- Tool-Less Maintenance
- Multiple Filtration Applications
- Low Pressure Drop
- Longer Service Life

Features

- Locking Snap Ring Design
- Built-in Bypass
- Built-in Flush Valve
- 3/4" MNPT Connections
- 150 PSI Operating Pressure

Product Specifications

Part Number	Description
210630	TANK, CARTRIDGE, ASSEMBLY, BLACK, WITH BYPASS, 1" MNPT, 0940, 2.5", AXEON
210709	CARTRIDGE, CALCITE, FST, 0.5 CF, AXEON
210710	CARTRIDGE, MIXED BED DI, FST, 0.5 CF, AXEON
210711	CARTRIDGE, GACC/CATALYTIC, FST, 0.5 CF, AXEON
210712	CARTRIDGE, GACC, FST, 0.5 CF, AXEON
210713	CARTRIDGE, CATALYTIC, FST, 0.5 CF, AXEON
