Verso Wall Light

310mm

185mm   240mm

235mm
(with mount)
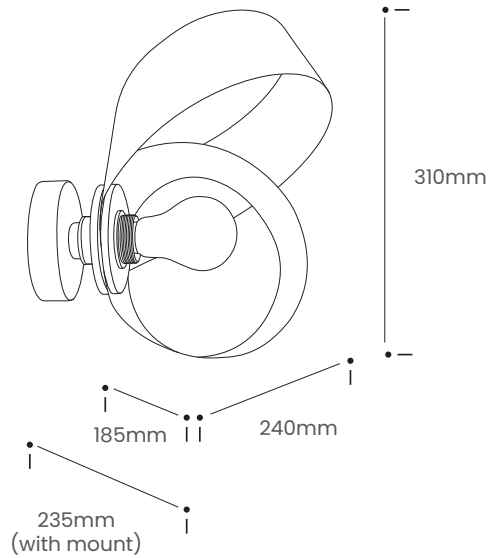

An ornate marriage of balance and light, the Verso Range is an asymmetrical wooden work of art that welcomes a fresh perspective. Forged from the Latin word to 'spin', the sculptural Verso Lighting Range calls back to nature and showcases the gravity defying, swooping motion of falling leaves in the wind.

Looping to create eye-catching asymmetry, the Verso Wall Light is carefully crafted from one continuous length of sustainably sourced FSC timber that soars around the warm glow of an exposed bulb to cast a beautiful blend of light and shadow. The innovative design can be positioned at different angles to create focused lighting within your space, from cosy reading corners and hardworking hallways to calming bedside spaces, its varying form adds playful personality to a wide range of interiors.

Alight your space with art.
