- ✓ 30 serves per bottle
- ✓ Delicious natural Dutch chocolate flavour
- ✓ Certified organic

Who This Is For

Ora Hormonal Balance™ is suitable for adults seeking functional food support for:

- Hormones
- Stress leading to low libido
- Maintaining general health and wellbeing
- Stamina and energy

Co-creating wellness™

Ora recommends a holistic approach in combination with Ora Hormonal Balance™. Try the following to enhance results:

- Whole food based diet
- Regular exercise
- Yoga (esp. Nidra)
- Meditation
- Spending time in nature
- Aromatherapy
- Caffeine-free beverages and herbal teas
- Raw chocolate treats
- Healthy snacks

Combines well with:

- Ora Organic Greens Superpowder+™
- Ora Mag³ Mood™

Ingredients

Organic *Lepidium meyenii* (Maca) root powder
Organic Cacao Powder
Organic Banana Resistant Starch Powder
Organic Shatavari (*Asparagus racemosus*) root ext
Organic Ashwagandha KSM-66® (*Withania somnifera*) root ext

Organic Shilajit
Organic Tremella fruiting body powder
Pearl powder
Lactobacillus acidophilus
Natural flavours:
Chocolate flavours
Coconut milk powder
Cocoa powder

Sweeteners: Erythritol, Stevia
Stabiliser: Xanthan gum
Microbial nutrient: Pyridoxine hydrochloride

No added yeast, soy, added sugars, lactose, gluten, artificial colourings, dairy, or animal products

Xanthum gum	Conventional grade	From fermented pea protein. Manufactured in Ordos city, Inner Mongolia
Vitamin B6	Conventional grade	Produced in Shanghai – China at an EU and China GMP certified, CEP and US FDA approved facility

Find Out More

Ora Hormonal Balance™ contains a synergistic blend of adaptogenic and tonic ingredients– Maca, Shatavari, Ashwagandha, Tremella and Shilajit which support the body's response to life's stressors, to support healthy hormonal balance, while also providing a good source of Vitamin B6 which contributes to normal hormonal activity, nervous system and psychological function, and the reduction of tiredness and fatigue. Kindling energy and a passion for life, in and out of the bedroom.

Shilajit - is a natural plant-based substance formed over centuries by the gradual decomposition of certain plants by the action of microorganisms. Shilajit is composed mainly of humic substances and is particularly rich in fulvic acid (a substance with antioxidant, anti-inflammatory, cognitive enhancing and energetic balance restoring properties) which is thought to contribute to shilajit's health and wellbeing effects. Historically shilajit has been consumed by the people of Nepal and North India as part of their diet, with children usually taking it with milk in their breakfast.

Lepidium meyenii - has been grown and consumed as a food crop and aphrodisiac in the Peruvian Andes for centuries. As a food source, the roots are often prepared with water, sugar and milk to make a

warm porridge. Maca root is traditionally used to enhance virility and fertility and to support energy, stamina and endurance.

Asparagus racemosus - the word Shatavari is commonly described as “the woman who acquires 100 husbands”. It is a renowned reproductive tonic with a capacity to extend fertility and endurance. In Ayurveda this plant is also referred to as the “Queen of Herbs” as it is thought to encourage love and passion. It is the primary Ayurvedic revitalising herb for females.

Tremella mushroom - has been a staple in Chinese cuisine for centuries. Tremella is rich in dietary fibre, protein, minerals, antioxidants and also high in vitamin D. It is used in China in a variety of dishes from soups to deserts. Tremella has also been traditionally used by Chinese and Japanese herbalists as a potent *Qi* tonic for thousands of years. It is thought to nourish the lungs, kidneys, heart, brain, stomach, and often taken as a tonic for the immune system. Tremella's polysaccharides have been shown to stimulate the production of the antioxidant enzyme superoxide dismutase (SOD) in the brain and liver. SOD helps to protect and regenerate and prevent wrinkling and sagging of the skin.

Directions For Use

Mix 5 grams (approx. 1 heaped metric teaspoon) into water or your favourite milk alternative and enjoy the great taste and nourishing goodness. Can be taken hot or cold. Store in a cool dry place away from direct sunlight.

Pack size: 150g oral powder
