# CONTENTS

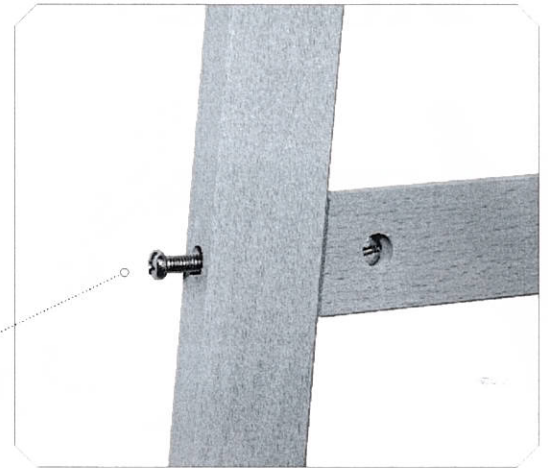

## ASSEMBLY REQUIRED

9 x Pieces of Wooden Easel Parts	2
4 x Bags of Screws, Bolts & Pin	2
1 x 4 Page User Manual	2
1 x Phillips Head Screwdriver	3

## **\*Note**

Many steps in assembly require the use of a bolt & barrel nut. Drop nut into shallow hole & insert bolt in from the side & through the barrel nut. Tighten the bolt with the supplied Phillips Head screwdriver.

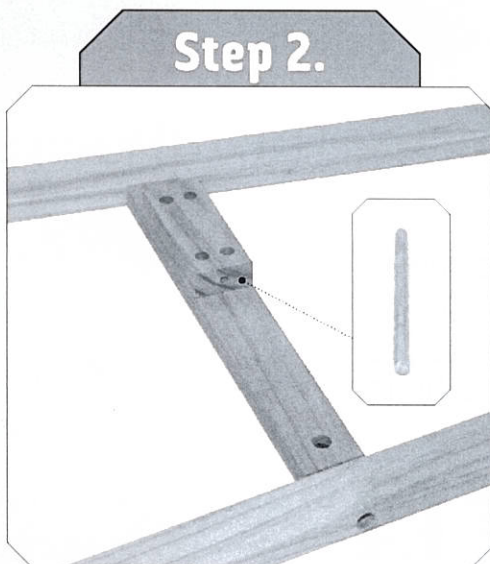

### **Step 1.**

Layout parts #1, #2, & #3 x 2, exactly as shown. Making sure that part #1 is at the top. Fasten using contents from (Bag A).

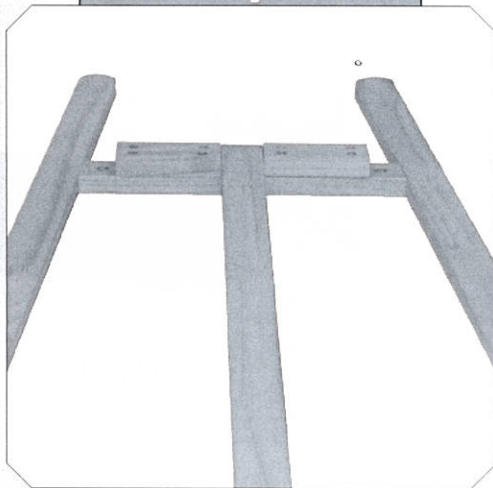

### **Step 2.**

Attach one of the timber blocks part #5 using four of the screws from (Bag B). \*NOTE: Make sure the side hole in part #5 is facing the center of frame. Add small brass pin from (Bag D), into the side hole of part #5 that is attached to frame. (As shown in picture to the left)

### Step 3.

Slide part #4 onto the small brass pin from (Bag D), making sure that the angled cut is facing the frame. Screw remaining part #5 onto frame with remaining screws from (Bag B).

### Step 4.

Adding parts #1 & #7, to frame using contents from (Bag C). Making sure part #7 is between part #4 and frame.
