NOTES

1. Doorstop is worked in continuous rnds (spiral), from the base upwards. Do not turn at the beginning of rnds and do not join last st of rnd to first st with a sl st.
2. Drawstring is worked separately, threaded through ch-1 sps and pulled to close opening at top of Doorstop. The ends of the Drawstring are sewn together to form handle loop.

DRAWSTRING

Ch 51.

Row 1: Sl st in 2nd ch from hook and in each ch across.

Fasten off, leaving a long yarn tail for sewing.

FINISHING

Thread Drawstring in and out through ch-1 sps of last rnd of Doorstop.

Stuff Doorstop

Stuff the Doorstop with a layer of fiberfill. The fiberfill is to shape the Doorstop and to keep the heavier fill from escaping through the spaces between sts.

Gently shape a hollow in the center of the fiberfill, then fill the hollow with pebbles or dried beans.

Tip: Roll a sheet of paper into a cone shape, with an opening at the narrow end, and use this as a funnel to insert the heavier fill.

Add a small amount of fiberfill over top of the pebbles or beans to keep them inside the Doorstop.

Pull ends of Drawstring to close opening at top of Doorstop and knot.

Sew ends of Drawstring together to form a loop for handle.

Weave in ends.
