## PRO GLIDE STRAIGHTENER

### DESIGNED FOR

Effortless, single stroke styling

- Adjustable digital temperature for styling control across all hair types. Protect the hair from heat damage with lower heat settings on finer textures and deliver the same unbeatable results
- Ceramic coated plates glide effortlessly through the hair, reducing the risk of snagging and damaging the hair
- Keratin infused plates helps protect the hair, providing a shinier and silkier finish
- The ceramic plates heat up in just 60 seconds, providing fast heat recovery for flawless results. Includes heat resistant protective silicone cover

Temperature: 150°C – 210°C  
Heat settings: Variable Temperature  
Cable Length: 3m

Part No.: ZY079

### INCLUDES

Pro Glide Straightener, silicon cover  
and instruction booklet
