

WORLD GEMOLOGICAL INSTITUTE™

WGI™ CERTIFICATE NUMBER

WGI9634151040

2024-02-15

ONLINE VERIFICATION

www.wgi-global.com

DESCRIPTION

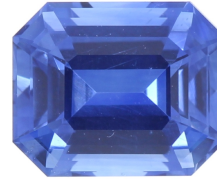

ONE (1) LOOSE STONE. SPECIES: NATURAL CORUNDUM. VARIETY: SAPPHIRE.

Center Stone
 Shape And Cutting Style **Octagonal Step Cut**
 Carat Weight **2.18 carat**
 Color Grade **Purplish Blue**
 Clarity Grade **Eye Clean**
 Cut Grade **N/A**

Comments

Measurements: 7.68 x 6.27 x 4.58 mm
 Transparency: Transparent
 Indication of thermal enhancement
 Origin opinion: Sri Lanka (Ceylon)

OTHER			

WGI™ Gemological Analysis is based on strict standards and internationally accepted grading techniques which the laboratories are committed to. Using professional equipment and terminology, this report represents a gemological opinion and does not serve in any case a guarantee or warranty. HPHT (high pressure high temperature) is a treatment to enhance the diamond's color. Clarity enhanced refers to laser drilling and / or fracture filling techniques to improve clarity of a diamond and its appearance. Weights and measurements are approximate. The mounting can limit the ability to see the characteristics and signs of treatment. The valuation refers to a recommended retail price (RRP).
