Tilow Wall Light Large

Representing the first strong branch that is born from a mighty oak tree, the Tilow Lighting Range allows nature's forms to enhance your interior's personality. A big sister to our Hanter design, the Tilow Wall Light Large can suspend a simple exposed bulb, or showcase a selection of our iconic lampshades.

An arc of sustainably sourced oak grows up and out from a solid base, suspending a bulb at perfect height to display boundless light across your space. The Tilow's steam bent design will divide and balance your interior with ease as it illuminates with a warm, welcoming glow. Whether invited into your home as a calming hallway glow or as living space illumination, the Tilow Wall Light Large extends unique, striking design to your walls.

Take your interior into a new chapter.
