THIS IS A TABLE TENNIS TABLE. DO NOT SIT, STAND, LEAN, WALK OR JUMP ON TABLE! FAILURE TO COMPLY WITH THIS CAUTION COULD RESULT IN PERSONAL INJURY AND/OR PROPERTY DAMAGE!

UNLEVEL FLOORS

If table does not seem level, it is probably because floor is not level. Move table several inches (set table in playing position) in different directions to find the best location for the table. If the floor is extremely unlevel, table may not play or operate properly. If table is high in the center, shim up under the outer legs.

CARE AND MAINTENANCE

You have purchased a quality product that will give you years of enjoyment. By following these simple maintenance steps you will add to the life of your new table. The top (playing surface) of your table is of aluminum construction. It can be affected by atmospheric conditions, meaning both temperature and humidity. This may cause a slight sag or distortion as top expands or contracts. This is normal and should not cause concern as it does not detract from the play or utility value of the table.

STORAGE OF YOUR TABLE

Wind gusts can blow over or unexpectedly open the table; Store in protected area. When your table is not in use, it should be folded up in a dry area.

CLEANING YOUR TABLE

To clean your table use a soft damp **NOT WET** cloth only. To prevent damage to your table's playing surface **DO NOT** use any chemicals, abrasive, or cleaning products on your table's playing surface.

IMPORTANT: Periodically, lubricate all moving parts, including pivot points, to assure smooth opening and closing. A light lubricant such as WD-40 is recommended.
