

Akari

Designed by Noguchi beginning in 1951 and handmade for a half century by the original manufacturer in Gifu, Japan, the Akari paper lanterns are a harmonious blend of Japanese handcraft and modernist form. Vitra’s mesmerising Akari lights are sculptor Isamu Noguchi’s modernist interpretation of Japanese paper lanterns. Today, the iconic collection consists of multiple lightweight table, floor and pendant lights that come in various shapes and sizes.

Akari comes in a range of configurations, the Jordan website will allow you to select your preference then further customise.
