

# WORLD GEMOLOGICAL INSTITUTE™

WGI™ CERTIFICATE NUMBER

WGI9634160531

2025-04-08

ONLINE VERIFICATION

[www.wgi-global.com](http://www.wgi-global.com)

## DESCRIPTION

ONE (1) FACETED GEMSTONE. SPECIES: NATURAL CORUNDUM. VARIETY: YELLOW SAPPHIRE.

### Center Stone

Shape And Cutting Style **Octagonal Mixed Cut**

Carat Weight **2.26 carat**

Color Grade **Yellow**

Clarity Grade **Lightly Included**

Measurements **7.92 X 6.10 X 4.98 mm**

### Comments

Indication of thermal enhancement.

Colour uniformity: Very good.

Transparency: Transparent.

Origin opinion: Sri Lanka (Ceylon).

WGI™ Gemological Analysis is based on strict standards and internationally accepted grading techniques which the laboratories are committed to. Using professional equipment and terminology, this report represents a gemological opinion and does not serve in any case a guarantee or warranty. HPHT (high pressure high temperature) is a treatment to enhance the diamond's color. Clarity enhanced refers to laser drilling and / or fracture filling techniques to improve clarity of a diamond and its appearance. Weights and measurements are approximate. The mounting can limit the ability to see the characteristics and signs of treatment. The valuation refers to a recommended retail price (RRP).
