*Introducing Passage Stools in walnut and upholstery
– a refined addition to modern spaces.*

Audo Copenhagen now introduces the Passage Stools in a solid, lacquered walnut edition, redefining contemporary aesthetics with a classic twist.

Crafted from premium walnut or natural oak, the collection of bar, counter and low stools sets a new standard for refined modern interior design. Crafted from solid walnut or FSC™-certified solid oak with a lacquered finish, the rich colour and luxurious grain pattern elevate the stools to new heights, adding warmth and depth as well as establishing a close connection to Audo Copenhagen's furniture collection, creating a harmonious design language across different furniture pieces.

Counter and bar height versions cater to different seating needs, offering flexibility for use in kitchens, bars and communal spaces. The integration of a black, brushed steel or brushed brass foot ring ensures stability and ergonomic support. For those seeking a heightened level of sophistication and comfort to the original design, the stools are now also offered with an upholstered seat in fabric options tailored to individual style preferences. With its exclusive design and added ease, the Passage Collection adds character and sophistication to any setting. The new Passage Counter Stool, Passage Bar Stool and Passage Stool launch online and at Audo Copenhagen retailers on 28. February 2024.

About the Designer

The Copenhagen-based design studio Krøyer-Sætter-Lassen creates furniture and interior objects for clients across the world. Founded in 2016 by Mads Sætter-Lassen and Emil Krøyer, their honest approach to design results in logical, functional and sculptural objects that showcase their strong cultural understanding and Danish design heritage to bridge the gap between art and design. Krøyer and Sætter-Lassen's honest focus is revealed through their consideration of material properties and tectonic details.
