

AeroPress

BREW GUIDE

You'll need:

- AeroPress
 - 16g Coffee
 - 250g Water
 - Filter
 - Timer
 - Scales
-

- Attach plunger to AeroPress brewing chamber and turn upside down, adding 16g of medium/fine coffee to the chamber.
- Place your filter paper(s) in the filter cap and pre-wet. Use 2 filters for a cleaner brew.
- Place AeroPress on scales. Shake to level the grounds, then add all 250g water. Stir.
- Remove from scales, screw on the cap and wait for one minute. Gently press until bubbles form on the cap.
- Place the cup upside down onto the inverted AeroPress, flip it over, and plunge gently, until you hear a hissing sound.
- Enjoy!
