teleadapt

MiniClip Light Switch Module TA-3379-25BK

Guest Room Light Switch

Now you can add a light switch for bedside lighting, desk lights or other lights to MiniClip compatible products.

Simple to Fit

Simple to fit, the MiniClip Light Switch Module just plugs straight into a power socket and your lighting then plugs into its flying lead. No need to employ electricians, this module is certified to UL153 and literally is plug and play.
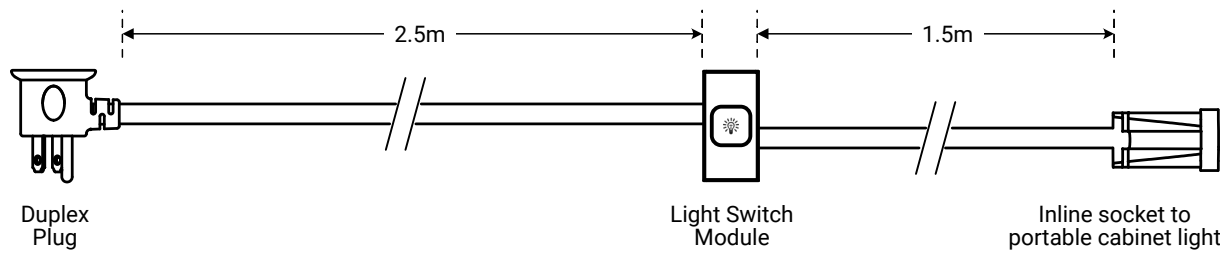

MiniClip and PowerHub Compatible

This 25mm module is compatible with the MiniClip range of trims (50mm and 100mm) and can be paired with any of the other MiniClip Modules or the MediaHub.

It is also designed to fit into the Extender Trim which makes it a perfect companion product for any of Teleadapt's market leading PowerHubs. You can of couse fit additional MiniClip Light Switch Modules if you have more lights to control.

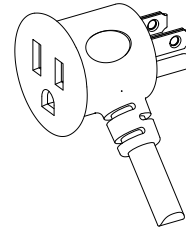

One MiniClip Light Switch Module installed in 50mm trim and two installed in a PowerHub Extender.
