

DESIGN BY RONAN AND ERWAN BOUROULLEC

HAY

PASSERELLE TABLE COLLECTION

HIGHLIGHTS

- Multifunctional collection of tables in different sizes, materials and colours
- Universal Shaker-inspired table featuring a well-balanced, flat-packed construction
- The tabletop features solid wooden edges and top surface in veneer or linoleum
- The frame is equally robust and functional, with a crossbar that strengthens and stabilises the table
- Suitable for a wide variety of private and public environments
- Qualified for contract use

PASSERELLE TABLE COLLECTION DESIGN BY RONAN AND ERWAN BOUROULLEC

Inspired by the uncluttered aesthetics of classic Shaker furniture, French designers Ronan and Erwan Bouroullec designed the Passerelle High Table – an updated interpretation sharing the same simplicity and quality in a more contemporary context. With a well-balanced, flat-packed construction, the tabletop features solid wooden edges and top surface in veneer or linoleum, with the core made of Lisocore® – an advanced, high-quality material that offers great strength yet is extremely light and easy to move around. The table frame is equally robust and functional, with solid wooden legs and aluminium and steel crossbar that strengthen and stabilise the table. The Passerelle High Table’s variety of material, colour, and size options amplify its multifunctional quality, making it equally suitable for using as a desk or work area in large offices or workspaces, as well as in a home office environment.

Ronan & Erwan Bouroullec the Paris-based design brothers from Brittany have been working together since 1998. Ronan is a graduate of the École Supérieure des Arts Décoratifs in Paris and Erwan attended the École Nationale Supérieure des Arts in Cergy before starting their own studio. They have transformed the design industry and offered new perspectives of materiality and purpose. For HAY, they have designed the Palissade Collection, Copenhagen Collection, Can Sofa, Élémentaire Chair, Passerelle Table and Pier System.

Desk and table

SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC™-certified wood (FSC-C148805), and bio-based foam that helps lower our products' overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
