STICKLEY®

# walnut grove

In Walnut Grove, Stickley has combined flowing lines inspired by modern design with moments of sophisticated handwork that beautifully showcase the furniture-maker's art. Contours are carefully sculpted, and structural elements are set apart to incorporate air and create a floating lightness.

We've crafted each piece from solid American black walnut and hand-applied a transparent finish that reveals the grain in all its beauty and complexity. Natural variations, from differences in grain pattern to a deepening of color over time, mean that pieces will vary slightly in tone—a mark of authenticity in the very best solid wood furniture. Walnut Grove is a visually rich collection that seems to have traveled directly from the craftsman's bench to your home.

In Walnut Grove's occasional tables, slightly offset ellipses form a delicate yet stable base full of air and light. Exposed pin joints highlight our time-honored woodworking techniques, and optional stone tops add to a palette of natural materials.

The Walnut Grove Bookcases and Entertainment Console align neatly at the bottom edge, meaning they come together beautifully to create a wall unit for media, books, and your favorite decorative objects.

Our patented Gathering Island is designed to fit like a glove behind a sofa, offering additional seating as well as functional shelves and workspace. The lower surface aligns with the back of the sofa to create a shelf for drinks or snacks, and an integrated power strip for lights, laptops, and chargers makes the top surface a convenient place to work. When work is done, the island becomes a gathering place for friends and family to relax while watching a movie or a game.

End Table

With the addition of center leaves, the intimate round dining table extends to welcome guests. Rounded rear legs extend seamlessly upward to create the strong, graceful back of our sculptural upholstered dining chair. And our console table shows how a remarkable floating-box design creates extra space and flexibility—it is equally at home as a console or functional server.
