# WARNING!

## Only for use by children over 8 years old.

Not suitable for children under 36 months due to small parts that may represent a choking hazard. Adult supervision is recommended. Read the instructions before use, follow them and keep them for reference. Do not apply to the skin, or close to the eyes or mouth. Do not swallow or inhale the contents. Use contents within 6 months of opening the individual containers. Clean any spills with kitchen paper and clean water. Dispose of any surplus materials in the household waste.

### Advice for supervising adults

This toy is for use only for children over the age of 8 years. Read and follow these instructions, the safety rules and the first aid information and keep them for reference. Incorrect use of chemicals can cause injury and damage to health. Only carry out those activities which are listed in the instructions. Because children's abilities vary so much, even within age groups, supervising adults should exercise discretion as to which activities are suitable and safe for them. The instructions should enable supervisors to assess any activity to establish its suitability for a particular child. The supervising adult should discuss the warnings, safety information and the possible hazards with the child or children before commencing the activities. The area surrounding the activity should be kept clear of any obstructions and away from the storage of food. It should be well lit and ventilated and close to a water supply. A solid table should be provided. The working area should be cleaned immediately after carrying out the activity.

### Ingredients:

Aqua; Ethylene/Vinyl Acetate Copolymer; Polyethylene Terephthalate; Trimethyl Pentanyl Diisobutyrate; Sodium Hydroxide; Phenoxyethanol; May contain +/- CI 15985; CI 19140; CI 47005; CI 45410; CI 77742; CI 15850.

Authorised Representative and Responsible Person in the EU (for the purposes of Toy and Cosmetic Safety Directives): Delphic HSE (Europe) B.V., The Base B, Evert van de Beekstraat 104, Schiphol, 118CN, Netherlands.

## Contents

4 x 7ml Solvent-Free Neon Nail Polishes  
(Purple, Yellow, Pink, Orange)

1 x 7ml White Nail Polish

1 x Toe Separator

1 x Heart-Shaped Emery Board

1 x Sheet of 80+ Glow-in-the-Dark Stickers

## Instructions

# Glow in the Dark Nail Art

2

3

## Preparation

Begin by placing the Glow-in-the-Dark stickers under direct sunlight or an artificial light, such as a lamp, to charge for 2-3 hours. This will help your stickers to glow vibrantly.

Wash your hands and nails well, making sure to remove any dirt under your nails using soap, a nail brush and warm water.

Trim your nails with a finger-nail cutter if they are too long, and file them gently using the nail file supplied to remove any sharp edges. Only file the tip of the nail, not the top surface, as filing the top surface will weaken the nail.

After filing your nails, always wash and thoroughly dry your hands to make sure that nail dust cannot spoil your nail polish.

## Painting Your Nails - Base Coat

To really make the neon polish colours pop, start with the white polish as a base coat. This creates a 'blank canvas' for your nails. Always

shake the nail polish before use to ensure that it's evenly mixed.

For best results you should paint your nails with smooth, continuous strokes of the brush, starting at the base of the nail (the cuticle) and painting towards the tip of the nail in a single stroke, using the brush supplied inside the lid of each nail polish. After dipping the brush in the nail polish, wipe the brush on the inside of the bottle neck to remove the excess polish and form the bristles of the brush into a good shape.

You should be able to paint smaller nails in two strokes of the brush, as shown:

Larger nails will need three strokes of the brush:

It is better to apply several thin coats of nail polish, rather than one thick coat, because this will produce a more even application. Allow each coat to dry before applying the next coat - if you apply the next coat too soon, the nail polish may lack gloss, or become streaky.

If you make a mistake, wait for the nail polish to dry, peel it off the nail (or wash it off the skin with soap and warm water), dry the nail and start again.

Once you've applied your white base coat, choose one of the neon colours and apply over the top. Most colours will need only two coats, but light colours, such as yellow, may need three coats.

## Glow-in-the-Dark Stickers

Carefully peel the sticker from the backing sheet by folding the sheet and apply to the nail. You may need to use some tweezers if you find this too fiddly!

### Top Tip:

- Use a mixture of large and small stickers to create your own cool nail designs!

6

## Removing the Nail Polish

Once the nail varnish is dry, it can be peeled off your nail in a single sheet. Any excess that is stuck to the skin can be removed using soap and warm water.

Paint On  
Peel Off

## Mobile Phone Holder

Included in your FabLab kit is a mobile phone holder, which lets you easily view our cool “how-to” videos packed with exciting content to discover new techniques and styles.

Simply place your phone into the holder and go to our channel at [youtube.com/fablabuk](https://www.youtube.com/fablabuk).

## Share your favourite designs!
