

BECKETT

This collection features dramatic knots, surface checks, burls, and swirls of light and dark that are unique from one piece to the next. Its clean design is embellished only with smooth, seamless bevels and built to last with exposed finger joints and dovetailed drawer boxes. Seating is crafted to protect clothing from snags and upholstered in a sustainable performance fabric.

BECKETT: Sustainable Style

When certain furniture is built, it requires wood that's flawless in its appearance; pieces that contain knots, gaps, or extreme color variations are rejected and set aside. But instead of being discarded, offcuts of American black walnut were used to make this collection, where such imperfections are celebrated and no two pieces are the same. It is a testament to the sustainable use of timber, as the most rustic boards are preserved to create an entirely unique look.
