

# 50-6111

## Medium weight cut resistant PU palm coated glove with thumb reinforcement

The 50-6111 is part of an innovative new family of hand protection designed to meet the new standards in cut protection in a powerful high value solution.

The lightweight shell delivers ANSI A6 cut resistance combined with high levels of abrasion resistance. The thumb area has been reinforced with a nitrile patch to provide additional support and protection in a key high action area, extending the life of the glove. The tough and durable PU coating provides excellent grip and protection making it ideal for assembly, metal fabrication and the automotive industry
