

TTP060L

Medium weight cut resistant blue latex palm coated glove

The TTP060L is our original latex palm coated ANSI level A5 cut resistant glove and still a staple product for many end users.

The crinkled latex coating to the palm and fingers provides excellent grip in wet (water) applications as well as high levels of puncture protection.

Designed to maximize grip, the coating channels surface liquid away to ensure safe handling even in the most tactile applications.
