

TTP200

Medium duty cut resistant liner glove

The TTP200 provides ANSI level A6 cut resistance in a medium duty seamless knit for a close fit and high level of comfort and dexterity. Forming the basis of much of the Tilsatec leather products it remains a core product in the range.

A reinforced thumb crotch provides additional protection in high action areas and the glove is also available with a PVC dot pattern to the palm and fingers for added control and grip.

*Optional reinforced thumb crotch shown.
