

Specification Sheet

Peg Step Stool

Peg Step Stool is a low stool that is ideal as a step or as a child's stool.

The stool is formed from two halves which are joined by pegs in the middle. The pegs hold the two halves together and create a handy slot down the centre making it easy to move the stool around with a single hand. Up to three stools can be stacked together.

The stool comes flat packed is made in Europe in FSC-certified oak.
