

TTP410B

Heavy weight antimicrobial cut resistant food glove

The 410B heavy weight cut resistant food handling glove has been re-engineered for 2017 to now offer extreme levels of cut resistance.

Designed to withstand the toughest of meat processing environments, the glove can be used for medium to large meat carving, deboning and butchery work.

The heavier gauge knit is tough and durable and able to be industrially laundered at up to 92°C/197°F to ensure all bacteria is removed.

Product Specifications

| | |
|---------------|-----------------------------------|
| Product Code | 410B |
| Sizes | 6/XS - 11/2XL |
| Glove Base | Tilsatec – RhinoYarn [®] |
| Construction | Seamless knit |
| Glove Coating | N/A |
| Cuff/Wrist | Integrated Knit wrist |
| Origin | USA |

Packaging

| | |
|--------------------|--------------------|
| Case Quantity | 288 each per case |
| Internal Packaging | 24 each per bundle |

Performance

ANSI 105: 2016

CUT
