

Eternity Sidechair

Coffee shell waste mixed with recycled industrial plastic

The shell of the Eternity chair is made of Matek®. Innovative technology allows us to recycle fibre-based waste materials with recycled plastic waste. The Chair itself is a very comfortable, functional stackable chair with industrial and sculptural features. Eternity is designed for disassembly, meaning that the design allows each component in its purest form to recycle into new production circles.

Coffee Waste Black

Designed by
Space Copenhagen

Item no.
11001 Eternity Sidechair,
–Coffee Waste Black*

**Variation possible due to recycled materials*

Country of origin
Latvia

Materials

Matek™

Matek

In alliance with large corporations, Mater has invented a patented technology that recycles their fibre and plastic waste. This resulting in five new unique materials that we've named Matek®.

Read more about Matek® [here](#)

Steel

Our Steel is composed of 20% recycled steel. Steel is a strong and light material with the quality that it can be processed in unlimited ways.

CO₂ Footprint

At Mater, we believe in the importance of transparency. By doing Life Cycle Assessments (LCA) on our furniture, we can analyse the total climate emission for each of our product's lifespan.

Read more about how we measure the CO₂ footprint [here](#)

Mater Take-Back

We unhesitatingly offer to take all our furniture made from Matek® back at the end of its life to recycle it into new furniture.

Read more about how Mater Take-Back works [here](#)

Repair for long lasting

Good products, are made to be used. To give the products the longest possible life, we want to make it easy for you to repair them yourself.
