

## SELECTING A WEATHER CHANNEL

Ch. #	Frequency
1	162.400 MHz
2	162.425 MHz
3	162.450 MHz
4	162.475 MHz
5	162.500 MHz
6	162.525 MHz
7	162.550 MHz

The radio has 7 NOAA/NWS weather channels to choose from. Press  to select the WX band. Then use   to select the weather channel for your area. Press and hold   to scan to the next active channel.

Visit [weather.gov/nwr/counties](http://weather.gov/nwr/counties) for your location specific channel.

## WEATHER ALERTS

To activate the weather alert function:

- Press  to activate weather alerts. When weather alerts are activated the WX icon on the LCD will flash.

Receiving weather alerts:

- When an alert is received, the radio will sound an audible siren and the flashlight will flash. The radio will then switch to the current tuned weather radio station to provide you with information on the alert. Press any button to cancel the alert.

5

To disable the weather alert function:

- Press  to disable weather alerts. When the weather alerts are disabled the WX icon on the LCD will stop flashing (when in weather band mode) or disappear (when in AM/FM mode).

NOTE: Weather alerts can be activated and disabled when the radio is powered off.

NOTE: The ER40 will receive weather alerts when the radio is powered off, tuned to a local weather station and the alerts are activated.

NOTE: The ER40 will not receive weather alerts when the unit is charging an external device.

## MENU FUNCTIONS

## ACCESSING AND USING THE MENU

Press and hold  for three seconds. To adjust the menu settings use  . To toggle through the menu options, press . To exit the menu, toggle through all the menu options using  or wait 10 seconds and the menu will timeout. Menu settings are saved when the menu is exited or timed out.

Menu settings are saved when the menu is exited or timed out.

## FLASHLIGHT

To use the flashlight, press . The flashlight will be in low power mode. Use  to cycle through high power mode, SOS strobe and to power off.

## ABOUT NOAA/NWS

NOAA and the NWS operate a system of all-hazard alert broadcasts covering most of the United States. To listen, fully extend the telescopic antenna and rotate until reception is clear. The ER40 can receive broadcasts up to 50 miles from the weather station depending on your location and conditions of weather, terrain, etc. If reception is not good, try a different location. If indoors, placement near a window usually improves reception.

## EMERGENCY ALERT WEATHER RADIO

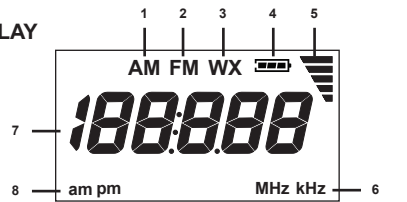

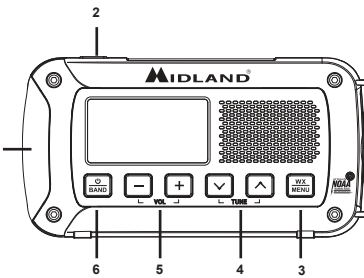

ER40

midlandusa.com

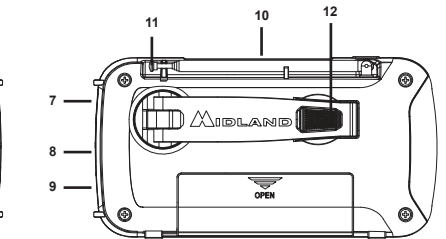

**QUICK START GUIDE**

1. Turn the radio over and remove yellow battery pull tab.  
 Note: Ensure the battery pull tab is completely removed before attempting to power on the unit.
2. To power on the radio, press and hold for three seconds.
3. Press to cycle through AM, FM and WX bands.
4. To activate weather alerts, press . The WX icon on the LCD will flash when weather alerts are active.
5. To use the flashlight, press on the top of the radio. Use to cycle between low power mode, high power mode, SOS morse code beacon and off.
6. To charge the internal battery, connect the included charging cable to a USB power source then connect the radio's micro-USB port to the charge cable.
7. To access the settings menu, hold down button for three seconds.

1. AM BAND
2. FM BAND
3. WEATHER BAND
4. BATTERY LEVEL AND CHARGING
5. VOLUME INDICATOR
6. FREQUENCY INDICATOR
7. CLOCK AND CHANNEL NUMBER
8. AM/PM ICON

**LCD DISPLAY**

**1**
**CONTROLS/FEATURES**

1. FLASHLIGHT
2. FLASHLIGHT BUTTON
3. WEATHER ALERTS AND MENU BUTTON
4. TUNE BUTTONS
5. VOLUME BUTTONS
6. POWER AND BAND SELECTION BUTTON

7. HEADPHONE JACK
8. USB DEVICE CHARGING PORT (OUT)
9. MICRO-USB RADIO CHARGING PORT (IN)
10. SOLAR PANEL
11. TELESCOPIC ANTENNA
12. HAND CRANK

**2**
**OPERATING YOUR RADIO**
**TURNING THE RADIO ON/OFF**

The first time you power on your ER40, you will need to remove and discard the yellow battery pull tab.

1. To turn the radio on, press and hold for three seconds.
2. To turn the radio off, press and hold for three seconds.

NOTE: When the radio is powered off, the LCD will display the clock, battery status and weather alerts (if enabled).

**POWERING YOUR RADIO**

The included rechargeable battery is in the battery compartment. The battery is a 3.7V DC, 2600 mAh lithium ion cell (18650). There are three different ways to charge your ER40 radio:

- USB Charging – Use the provided cable and a USB power source to charge your radio. Insert the USB charge cable into a USB power source and plug the micro USB connector into the micro-USB port. See Battery Level Indicator section for directions on how to tell if your radio is fully charged.
- Hand Crank Charging – Charge your ER40 by rotating the hand crank. Speed of cranking and length of time cranked will determine the charge of the Li-Ion battery. See Battery Level Indicator section for directions on how to tell if your radio is fully charged.
- Solar Panel Charging – Charge your ER40 by placing the solar panel in direct sunlight. See Battery Level Indicator section for directions on how to tell if your radio is fully charged.

NOTE: Before applying power to your ER40 ensure the yellow battery pull tab has been removed.

**3**

Only use the provided Midland USB cable for charging.  
 Only use the provided Midland Li-Ion battery.  
 This radio does not support Alkaline Batteries. Do not mix Alkaline, Standard or Rechargeable Batteries.

**CHARGING EXTERNAL DEVICES**

Cell phones and USB-powered devices can be charged using the USB charge cable for that device. Connect the charge cable to the port labeled USB on the side of the ER40. If the radio is on, it will automatically turn off and go into charge mode. The radio should be fully charged before charging external devices.

⚠ Your ER40 will not receive weather alerts when charging an external device.

**BATTERY LEVEL INDICATOR**

○ 3 Bars = Full Battery	
○ 2 Bars = 2/3 Battery	
○ 1 Bar = 1/3 Battery	
○ No bar = battery low	

When the ER40 is charging, the battery bars will cycle through no bar to three bars.

**SELECTING A BAND**

To select between AM, FM and weather band, press . Each press will cycle through the bands in the order listed.

**ADJUSTING THE VOLUME**

To adjust the volume up, press . Then adjust the volume down, press .

**TUNING THE RADIO**

Press to cycle through AM, FM and weather bands. Once the desired radio band is selected, tune to the desired station using . Press and hold to automatically scan to the next radio station.

NOTE: For best FM and weather band reception, fully extend the telescopic antenna and rotate until reception is clear

**4**
